

Personal Statement

I grew up in Durham, NC and pursued education at Chatham University in Pittsburgh, PA. I use both game design engines and 3D software to create art and experiences for everyone to enjoy.

Experience

Student Worker Chatham University | 2023

- Working with professors on professional research.
- Working with other students to build teamwork through studio projects
- Organizing studio days for students and professors to attend and participate in an event relating to Immersive Media.

Experiencing Prehistory Through Virtual Reality Summer Research | 2022

- using virtual reality technologies to deliver experiences where Chatham students can interact “directly” with these extremely rare and typically inaccessible discoveries
- Development of VR application in Unity
- Prototyping

Hawkins Landscaping Landscaping | 2021.

- Managing teams and following instructions from other team heads and commissioner
- Effective on site communication and result reporting

Whits Frozen Custard Cashier/Server | 2020-2021

- Learned customer service and how to work with others
- Working with customers
- Managing inventory and restocking
